

Eduard O. Hinunangan

Full-Stack Software Engineer

Email: eduardhinunangan@gmail.com | Phone: +63 9297859401 | LinkedIn: www.linkedin.com/in/eduard-hinunangan-036606270 | Portfolio: <https://heduard.github.io/portfolio> | Location: Naval, Biliran, Philippines

PROFESSIONAL SUMMARY

Software Engineer with 4+ years of experience developing, enhancing, and maintaining web and backend applications across enterprise projects. Experienced in C#, ASP.NET, Angular, microservices, event-driven architecture, Apache Kafka, and SQL, with hands-on experience in distributed systems, bulk data processing, API development and integration, debugging, and performance optimization. Experienced in delivering scalable solutions, troubleshooting technical issues, and supporting applications from development through production.

TECHNICAL SKILLS

Languages: C#, JavaScript, TypeScript

Frameworks: ASP.NET MVC, ASP.NET Web API, Angular

Architecture & Messaging: Microservices, Event-Driven Architecture, Outbox Pattern, Apache Kafka

Tools & Platforms: Azure DevOps, Git, GitHub Copilot, Bamboo, MSSQL, Azure Blob Storage, SourceTree

PROFESSIONAL EXPERIENCE

Software Engineer | Accenture

2026 – Present

- Contribute to backend development for a Singapore-based public sector project, working on distributed services that process high-volume data and transactions.
- Build and maintain event-driven workflows using Apache Kafka, enabling asynchronous communication and reliable data processing across services.
- Apply the Outbox Pattern to improve consistency between database operations and event publishing during data synchronization.
- Work with microservices and distributed system components to support scalable and resilient backend processing.
- Participate in code reviews and collaborate with team members to maintain coding standards, code quality, and maintainability.

Software Engineer I | BlastAsia Inc.

2023 – 2025

- Contributed to the development and enhancement of enterprise projects including Xamun AI, Advance-Energy, Rivington-Collection, Interport, EON-Pharma, MWell, and Aviation.
- Developed and enhanced web applications using C#, ASP.NET Web API, ASP.NET MVC, Angular, MSSQL, and Azure Blob Storage.
- Implemented new features, resolved defects, optimized application performance, and improved existing functionalities.
- Collaborated with cross-functional teams and senior developers to address requirements and deliver application updates.
- Participated in Agile development, code reviews, Git-based version control, and CI/CD processes using Bamboo and Azure DevOps.

Trainee / Associate Software Engineer | BlastAsia Inc.

October 2022 – 2023

- Completed an immersion program with the AIFS team, gaining hands-on experience in enterprise application development.
- Collaborated with senior developers to understand application architecture, coding standards, development practices, and deployment processes.
- Assisted with development, bug fixing, feature enhancements, and maintenance of production applications using C#, ASP.NET Web API, ASP.NET MVC, Angular, and MSSQL.

Education

Bachelor of Science in Information System | Biliran Province State University

June 2018 – August 2022 | P.Inocentes Street, Naval, Biliran, Philippines
